1		Feedback was provided thoroughly throughout the module, which gave me the perfect opportunity to improve the work being created on multiple occasions. The process excelled beyond classroom where the tutor was actively open to taking questions etc. via email allowing for further help and guiding. Overall the feedback given throughout the module not only helped to improve my grade but provided me with a wider understanding of industry and industry jobs. Couldn't have asked for more helpful sessions!
2		Feedback was timely, clear and helpful.
3		I felt that I could've gotten more written feedback at the end of the module. A lot of positive feedback was given but not much constructive criticism throughout the process.
4		Thorough and detailed. Bringing up points that we missed
5		The feedback provided was always very helpful, especially for the students who had not done these types of projects before in their course. At the beginning of the course there was a lot of confusion on who was part of the advantage module, which I think did not help the groups who did not know anyone else in the module.
6		I feel that I deserved a higher mark. I thought we were being marked on our individual involvement? I was marked based on the film outcome despite only being the screenwriter. I'm not happy at all as I was praised for the script only to not get a good mark.
7		I felt like the communication between staff and students was really clear both in person and on Moodle, queries, questions and comments were conveyed succinctly and constructively.

1	[REDACTED]	The teaching staff on this module showed a high level of professionalism, providing us with assistance and guidance throughout the entire semester, making sure that all the students were on track. The final feedback was very clear and helpful, however, I would have liked to receive more comments in terms of scriptwriting and its layout, even though we did receive advice when we asked for it, a final statement on our performance in terms of scriptwriting would've been helpful to see the weaknesses and strengths in terms of that.
2	[REDACTED]	The feedback provided throughout the module was given individually to each group, and at least in my case proved to be invaluable to the success of our final piece.
3	[REDACTED]	I was very happy with feedback provided throughout the module
4	[REDACTED]	I feel that not much constructive criticism was given only positive feedback.
5	[REDACTED]	No issues. Did the job
6	[REDACTED]	I'm gutted with my grade. I really enjoyed this module and put in a lot of effort.
7	[REDACTED]	This was a really enjoyable module, faculty guided us well and supported us throughout. 10/10.
